

# Minipal GT Racking

## Medium Duty galvatite widespan racking system

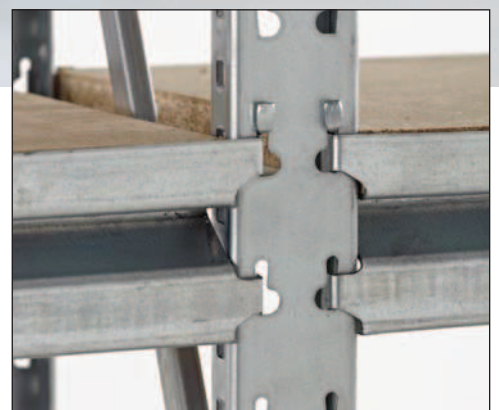

Easy to adjust galvatite racking system. Beams simply locate into the front face of the upright and clad with a flush fitting chipboard shelf. Cost effective solution to meet today's general, archive and bulk hand-loaded storage requirement.

- Available in 4 frame depths - 450, 600, 900 or 1200mm
- Choose from frame heights of 1800, 2100, 2400 or 2700mm
- Stepped beams are available in lengths of 1800, 2100 and 2400mm
- Fully galvatite finish for durability
- Upto 495kg shelf load UDL\*
- Beams adjustable on 50mm incremental pitch

\*Uniformly Distributed Load

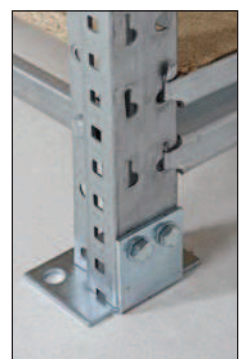

Unit 4, The Croft Business Park,  
Kirk Deighton, Wetherby LS22 5HG  
**01937 585057**  
[www.palletracking-uk.co.uk](http://www.palletracking-uk.co.uk)

22mm chipboard shelves fit flush to the top of the beam making loading snag free.

Locking pins ensure beams cannot be accidentally dislodged.

Frames are fixed down through bolt on footplates.
